Professional Summary

Entry-Level Data Analyst with experience in SQL, Python, Excel, and Power BI for data cleaning, analysis, and dashboard development. Skilled in transforming raw datasets into structured reports and actionable insights through visualization and KPI tracking. Seeking to contribute analytical and reporting skills in a Junior Data Analyst role.

Skills

Programming & Querying: SQL, Python

Data Visualization: Power BI, Tableau

Tools: Microsoft Excel, Google Sheets

Concepts: Exploratory Data Analysis (EDA), Data Cleaning, Data Modeling, Statistics, KPI Tracking, Dashboard Development

Version Control: Git, GitHub

Projects

Agricultural Commodity Price Range Across India(2018) Project Repository
Tools: Excel, Power BI

- Analyzed retail and wholesale commodity pricing datasets containing thousands of records across multiple states.
- Cleaned and transformed raw data using Excel Power Query to improve reporting accuracy.
- Developed interactive Power BI dashboards to monitor commodity price trends and regional variations.

Google Play Store App Performance and User Engagement Analytics Project Repository
Tools: Python, Pandas, Power BI, Excel.

- Cleaned and transformed Google Play Store data using Python and Pandas.
- Analyzed app ratings, installs, reviews, and pricing trends
- Built an interactive Power BI dashboard to visualize app performance and user engagement.

Education

Bachelor of Engineering (ECE)

Anna University

CGPA: 7.9

Certifications

Data Analytics Certification – Entri Elevate (in collaboration with Illinois Tech, US) Apr 2026-Oct 2026

- Executed SQL queries to extract, join, and analyze structured datasets from relational databases.
- Performed data cleaning and preprocessing to ensure data quality and consistency.
- Developed interactive dashboards and visual reports using Power BI and Excel.
- Analyzed real-world business case studies to generate insights and support decision-making.
